

ABOUT THE SHOW

THE LOG & TIMBER HOME SHOW – A REPUTATION FOR EXCELLENCE

Since our first show in 1995, The Log & Timber Home Show has provided a marketplace for exhibitors to meet qualified consumers who are eager to live the log or timber home dream. At our shows, you'll introduce yourself, your products, and your services to this niche audience, made up of customers who are still deciding between log, timber or hybrid construction; families who are already living the dream and want to furnish, decorate and upgrade their home; and long-time owners interested in restoring or maintaining their investment. For show attendees, our events are unique opportunities to see and feel log and timber home structures and corner samples, learn about the technology and craftsmanship involved in building these masterpieces, shop for rustic furniture and décor, and spend time getting to know your business and services. Join us in 2009 and meet the qualified customers that we bring to the Log & Timber Home Show each and every show!
